

We are dedicated To Making Engineers Experts in Project Planning Scheduling & Controlling Using Primavera P6 Version 7 & MS Project 2007/2010

We provide Professional training to Individuals & Corporate. This is only in Chennai Trained by a Project Management Professional with 34 years experience

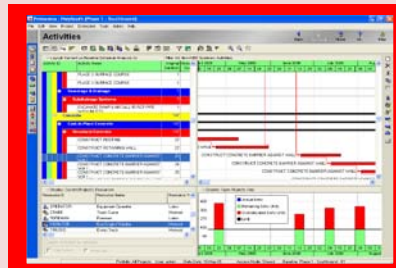

When you are learning with us, you will be developing a live project right from start to finish using all the features of the software. Also we have a post training support through Email, or by phone or in person. We will be issuing the certificate only after an assessment and making sure the student is very confident.

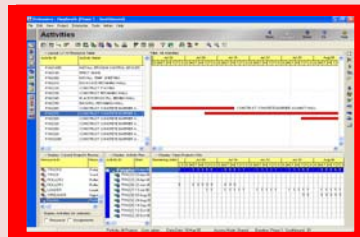

Schedule Activities with minute details to produce Micro schedule

Analyze Network Diagram and Optimize Schedule

Check over allocated resources and level resources
